

Swallowdale Primary School

BEHAVIOUR and ANTI-BULLYING POLICY

Policy statement

Swallowdale Primary is committed to creating a calm and supportive environment where exemplary behaviour is at the heart of productive learning. Everyone is expected to maintain the highest standards of personal conduct, to accept responsibility for their behaviour and encourage others to do the same. Our behaviour policy guides staff to teach self-awareness and personal responsibility. It is underpinned by the school's core values of Be Respectful, Be Prepared and Be Safe.

Aims of the Policy

- To develop a positive whole school ethos: where the expected is recognised and the above and beyond is rewarded.
- To ensure that all learners have equitable outcomes; respect and understanding is modelled from all members of the school's community.
- To help learners take control over their choices and be responsible for the consequences of those.
- To help learners reflect upon the consequences and impact of their own behaviour on themselves and others through a restorative approach.
- To build a community which values kindness, care, good humour, understanding, respect and empathy for others.

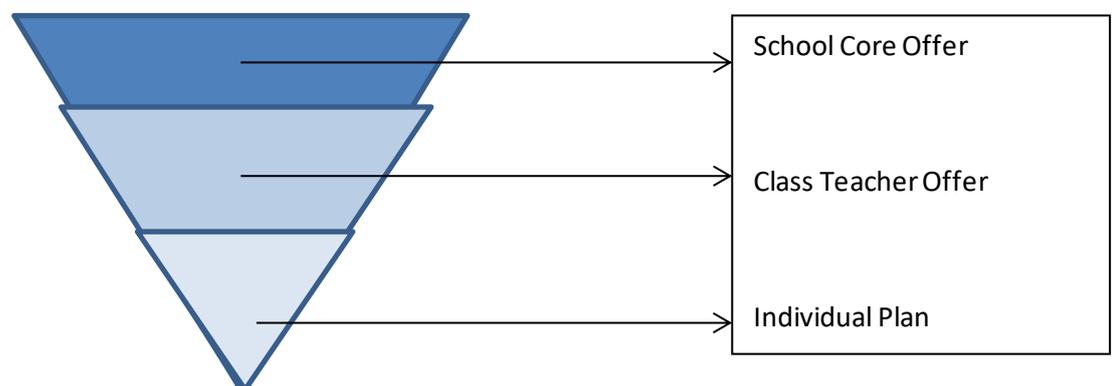

Purpose of the Policy

To have a clear system which is understood by all and works to:

- Positively recognise behavioural norms.
- Positively reward above and beyond.
- Promote self-esteem, self-awareness and control.
- Teach appropriate behaviour through positive interventions.

Whole School Tiered Approach

The school's behaviour policy has been designed on a 3-tier model to ensure equitable outcomes for all with clear and consistent expectations supported by the school's core offer, supported by class teachers' offer and underpinned by individual behaviour plans where necessary. The Whole-School Model is based upon:

School Core Offer

Swallowdale Primary School staff will:

- Know the values of the school: Be Safe; Be Respectful and Be Prepared and will be an exemplary model of these.
- Use the values of the school to consistently and positively reinforce our agreed expectations for behaviour.
- Model respect and kindness in their everyday communication with each other, children, parents and all other stake holders.
- Use the school's visual as a framework for dealing with positive behaviour and inappropriate choices.
- Use the school's visual consistently to ensure that children are recognised for great achievement.
- Use the school's visual consistently to support children in making the right choice and adapting their own behaviour when necessary.
- Listen to all children to ensure they have opportunity to discuss and explain.
- Model agreed expectations for travelling around the school and entering and exiting assembly.
- Greet their class in the morning with a handshake and morning greeting.
- Teach their children to line up in register order throughout the school day with the exception of lining up in the morning.
- Hold weekly Pupil of the Week Assemblies to acknowledge a child from every class who has been deemed to 'Fly High' by their class teacher.

The Visual:

The Stages Explained:

Purple Fly High- acknowledgement where a child has excelled.

Blue Values- Reminder for the expectations.

Green Reflect- a verbal reminder to a child that their behaviour is not meeting the expectations.

Yellow Time to Talk- A restorative discussion between adult and child to acknowledge choices.

White Consequence- 5 minutes of play to be missed for low level disruption in classroom. If behaviour is more serious or persistent, please refer to consequence section.

Class Teacher Offer

Swallowdale Primary School teachers will:

- Ensure that the school core offer is displayed within each of their classrooms or learning areas and used as part of their behaviour management approach.
- As well as this, use their own strategies for positive behaviour management which are appropriate for their own teaching style and the interests of their class.

Individual Plan

Where a child has additional needs and requires a more personalised approach to positive behaviour management, this will be decided in collaboration with the child, his/her class teacher, the SENDCo and the child's parents where appropriate. The individual plan will be recorded on the appropriate format and stored in the child's paper folder as well as recorded electronically on CPOMs. The school may also offer support for the children through interventions such as ELSA, Relax Kids or counselling.

Lunchtime Expectations

It is expected that the school's ethos and values will permeate throughout lunchtimes too where exemplary behaviour remains the expected. The school's lunchtime charter has been developed with the children based upon them developing their knowledge of their rights and responsibilities. This is prominently displayed around the school and used with the children as a reminder. Lunchtime supervisors will uphold the Whole School Offer Expectations as outlined above and will seek to resolve any incidents. Where children have demonstrated positive behaviour and demonstrated the school's values, the lunchtime supervisor will ensure that they communicate this with the class teacher during handover at 1pm. The class teacher will then be able to recognise and respond to this using their own classroom strategy.

Where a child has not demonstrated the values of the school, the lunchtime supervisor will provide the child with opportunity to reflect and talk through a verbal reminder. The children will be directed to reflect either by taking some 5 minutes away from the playground or to stay with the adult outside to have a restorative conversation about their actions and the consequences. If the incident is deemed serious, then the member of staff will seek guidance and support from either the classroom teacher or a Senior Leader in school. For more serious incidents, children will lose time from either their break and/or lunchtime (see below).

Consequences

Where behaviour is beyond a 5 minute loss playtime, a more serious consequence will be issued. These are only examples and may need to be amended due to the child's needs, special circumstances or recurring incidents. This must be discussed with SLT. If deemed serious, school will follow the Exclusion Policy.

Serious disruption to own learning	1 break time lost
Serious disruption of learning to others	1 lunchtime lost
Verbal (e.g. swearing)	1 break time lost
Physical (hitting, kicking)	1 lunchtime lost
Threatening behaviour	1 break time lost
Discrimination or prejudice behaviours (Record on CPOMS)	At least 1 lunchtime/ use of daily report

Physical Restraint

Use of reasonable force may occasionally be required. Only trained staff are authorised to use reasonable force where, to not do so may result in injury or serious damage to property. Whenever possible, support should be sought from a colleague who has been trained for such situations. It is the school's legal duty to make reasonable adjustments for disabled children and children with special educational needs.

Any form of physical restraint must be recorded on the school's agreed record form and reported to parents within 24 hours. The form must be signed by two members of staff and a member of SLT. This must then be recorded in the school's Physical Restraint book and added as a separate CPOMs entry.

Mental Health

Negative experiences and distressing life events, such as the current circumstances, can affect the mental health of children. Swallowdale Primary School recognises that mental health issues can bring about changes in a child's behaviour or emotional state, which can be displayed in a range of different ways, all of which could be an indication of an underlying problem. This can include for example being fearful or withdrawn; aggressive or oppositional; or excessive clinginess. Where our staff have identified children who are struggling with their mental health, school will ensure appropriate support is in place for them.

Sexual Violence and Sexual Harassment

Where an incident of this nature is reported, the school will respond using the guidance below:

- School will follow the BEP Child Protection Policy alongside DfE papers such as 'KCSIE' (September 2021) and 'Sexual violence and sexual harassment between children in schools and colleges' (May 2018).
- We will liaise with the police, social care and parents as appropriate.
- We will offer support to both the victim(s) and perpetrator(s). Parents will be included in discussions about the format that this support will take.
- All incidents and actions will be recorded onto CPOMs using the appropriate tab.

Anti-Bullying

The school operates a proactive approach to creating a culture of high expectations of behaviour for all children and adults alike. In order to reduce bullying incidents as far as possible, the school will ensure that the children receive the following proactive steps:

- Progression PSHE curriculum which provides children with the opportunity to acquire the knowledge and understanding of healthy relationships and behaviour as well as an increasing understanding of the implications for when people choose not to be respectful towards each other.
- Assemblies through the year to focus on key elements around developing their understanding of key concepts linked to anti-bullying including: friendships, mental health, British values and the impact of bullying.
- Engage in local and national initiatives such as Anti-bullying week.
- Provide opportunities for children to voice their opinions and concerns through pupil council and pupil ambassadors on a whole school level.
- Provide opportunities for children to voice their opinions and concerns on a personal level such as class thought boxes, ELSA, counselling and Relax Kids sessions.
- Uphold a culture of ongoing monitoring and professional curiosity where changes to children's general wellbeing and behaviour are noted, monitored and acted upon in a timely manner.

The school adopts the Anti-Bullying Alliance definition of bullying which is:

The repetitive, intentional hurting of one person or group by another person or group, where the relationship involves an imbalance of power. It can happen face-to-face or online.

What should the children do if they think they are being bullied or witness bullying?

- Tell an adult- this should be their teacher, parent/carer, or any other adult in school.

What should parents do about bullying?

- Talk about the definition of bullying to their child and try to establish the facts.
- Inform the school if they think their child is being bullied or is bullying other children.

What can the school do to stop bullying?

- Promote a culture of positive relationships and behaviour in school.
- Promote and model the school's values.
- Offer appropriate education within the curriculum.
- Uphold the school's open door policy where parents and carers can discuss their concerns about their child's wellbeing and/or behaviour.
- Investigate any concerns reported by discussing the concerns with all children involved.
- Ask parents to complete fortnightly monitoring sheet and share with a member of SLT following the 2 weeks.
- Inform the parents of all involved as to what has been happening and the actions taken to resolve the situation.

APPENDIX

Amendments to this behaviour policy in response to Covid-19 (To be implemented if school is subject to PHE Directive)

During this time the values of our school; be prepared, be respectful and be safe, remain relevant. Our school needs to remain a calm and supportive environment where everyone follows the guidance and measures put into place to keep all safe during this challenging and unprecedented time.

In school, our community must adhere to the following measures:

- Children must enter and exit the building through their designated point only and no other, unless required by an adult to do so.
- Remain at their allocated desk during lessons and use the drawer on the desk for storage.
- Children must follow the school instructions on hygiene, such as handwashing and sanitising.
- Children should only socialise with others in their bubble.
- Children are requested to move around the school as per specific instructions (for example, one-way systems, out-of-bounds areas, queuing).
- Children are encouraged not to touch their mouth, eyes and nose and informed that they must use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it')
- Under no circumstance should children cough or spit towards any other person.
- Children must be encouraged to tell an adult if they are experiencing symptoms of coronavirus.
- Any equipment or other items including drinking bottles must not be shared by children.
- During break and lunch times, children may only play in the area designated for them. They should not cross into another area, or cross through another area, unless required to do so by an adult.
- Children must use the designated toilet, one at a time, and let an adult know when they are going to the toilet and when they have returned from the toilet.

It is vital that our children rigorously follow these measures in order for our community to remain safe and well.

Where a child has not followed these measures the following consequences will be adopted:

- In the classroom, the adult will verbally remind the child about the measures and reiterate why the measures are necessary. This may take the form of a restorative conversation. The adult will be firm but fair.
- At playtimes, lunchtimes and when using the outside area, any child putting themselves and/or others at risk will be asked to sit on the bubbles bench until the adult has deemed it safe for them to return to their bubble.

If an incident is deemed serious, then the adult will seek guidance and support from a Senior Leader in school.

Any child:

- Unwilling to follow the safety measures put in place.
- Putting themselves and others' at risk by their actions.
- Unwilling to change their behaviour following a restorative conversation.

Will not be able to attend school and a fixed term exclusion may be applied.

Throughout this time, the current disciplinary powers that Swallowdale School has to exclude pupils who are putting the safety of others at risk, remains.

Remote education

Many children are currently accessing remote learning through the Seesaw platform. The guidance in our E Safety policy around cyber bullying remains relevant and can be accessed here:

<http://swallowdaleschool.co.uk/wp-content/uploads/sites/6/2019/02/Swallowdale-ICT-e-safety-policy-1.pdf>

Further support for parents and carers around online safety can be found on these government recommended websites:

- Childnet offers a toolkit to support parents and carers of children of any age to start discussions about their online life, to set boundaries around online behaviour and technology use, and to find out where to get more help and support. <https://www.childnet.com/parents-and-carers/parent-and-carer-toolkit>
- Support for parents and carers to keep children safe from online harms, includes advice about specific harms such as online child sexual abuse, sexting, and cyberbullying.
- Support to stay safe online includes security and privacy settings, blocking unsuitable content, and parental controls.
